

AURORA
VIN DE MONTAGNE

Crystal 2020

Grape Variety:
100% Chardonnay

Tasting Notes:
Aurora Chardonnay has a bright and golden color. The nose is intense with typical dry fruit and a discrete note of white fruit and flowers that bring a variety of herbs and light spices. The attack is thick and fruity followed by a dense mouth feel, and a long dry spicy finish

Sourcing and Vineyards:
These grapes have been sourced Aoura, at 900m altitude. They are picked in the beginning of September. Grape clusters are tightly controlled from optimal flavor concentration and complexity.

Winemaking:
Our goal is to pick at maturity level that would provide optimal sugar levels and preserve the natural acidity and fresh aromas of this grape. Upon arriving to the winery, the grapes are immediately pressed and the juice is fermented at low temperatures in stainless steel tanks until initial fermentation is complete. The wine is then filtered and bottled four months after harvest.

Technical Data:
PH: 3.3
Total Alcoholic Strength: 13.5%
Total Acidity: 3.7 g(H₂SO₄)
Total Sulfur dioxide: 83 mg/l
